

## West Morgan - East Lawrence Water and Sewer Authority

---

P. O. Box 2254 ■ Decatur, Alabama 35609 ■ Phone (256) 355-3746

*WMEL has been informed about a Legal Notice that has been sent to our customers that provides details about a settlement of a class action lawsuit that does not involve WMEL.*

*WMEL was not, and is not, involved in any settlement of any class action lawsuit.*

*Because the Administrator of the lawsuit's settlement chose to title their website, [www.WMELDrinkingWaterSettlement.com](http://www.WMELDrinkingWaterSettlement.com). We understand why you and several of our customers are calling us with questions.*

*However, we must state emphatically that WMEL is not involved in any way with the settlement of the class action lawsuit mentioned on the Legal Notice.*

*We can tell you that WMEL's new reverse osmosis plant has been in operation since May, and that it is delivering high quality drinking water that addresses past health advisories and is well under all current advisories and regulations. We will continue to monitor all potential new advisories and changing regulations from ADEM and the EPA to insure our water is in full compliance.*

*We understand the confusion the settlement administrator has caused, and we thank you for your consideration.*

*The person for you to call with questions is not WMEL, but the Lawsuit Settlement Administrator whose phone number is on their Legal Notice.*
